

CCS Awards 2010 UK's Most Considerate Site

Following the announcement that we have been awarded 7 CCS awards across the company we are also delighted to announce that our Gold Award winning site at Middlewich was also a runner up in the category of 'UK's Most Considerate Site'.

This is an excellent achievement with only 18 of the 580 award winners being eligible for inclusion.

Well done to Keith Huntington and his team for all their hard work.

2010
CONSIDERATE CONSTRUCTORS

**Most Considerate Site
Runner up**

Presented To: Keith Huntington
GB Building Solutions Ltd
for: CCC Middlewich
Client: Avantage Cheshire Ltd

This project required the new build of a care home in a residential area, adjoining school premises.

A firm commitment to environmental protection and community support was evident throughout this clean and well-presented site. A 60% target for using recycled or sustainable materials was matched by the site's own high recycling scores, and timber off-cuts were also provided for the use of site neighbours. Extensive measures for energy conservation were also in place.

Community support included carrying out tree removal and other small works for residential neighbours, and elderly people were assisted with rubbish removal and disposal. There was strong involvement with the adjoining school, including the voluntary landscaping of pathway areas and assistance in planning and converting an old IT suite into a library. Site staff also created involvement projects alongside the pupils and staged a "Green Day" environmental event at the school.

Throughout the site there was clear commitment to the detail of considerate site practice, and the result was an excellent ambassador for the Scheme and for the industry.
