

Louise Ebrey, our Business Improvement Manager, will be facilitating at two great events in September

23rd September 2010
Theme : "Is our House in order?"

Does the sector do enough to encourage women to join and to stay?

This is WISH's first ever "Question Time" style panel discussion. We want to hear your questions on a range of issues from leadership to learning; mindset to management and technology to teamwork. The panel will be:

Cathy Deplessis: Chief Executive of Lambeth Living
Paul Drechsler: Chairman and Chief Executive of Wates
Neil Hadden: Chief Executive of Genesis Housing Group
Charmaine Young CBE: Regeneration Director, St. George Plc

Executive Clinic:
"Creativity and Innovation"

Held at the inspirational West Yorkshire Sculpture Park

Harnessing the Power of Imagination to generate solutions to real problems in your organisation

29th September 2010

Influencing thought, action and policy through perception, style and ideas, this **practical workshop is aimed at decision makers who are interested in:**

- Developing an innovative approach to leadership
- Sustaining a creative climate
- Creative problem solving
- Taking a strategic look at Creativity and Innovation

Bring along a problem, issue or opportunity you are facing at the moment and we will work with you to develop creative solutions as part of the workshop.

To find out more and sign up for the workshop visit www.executiveclinic.co.uk

Louise is Business Improvement Manager at GB Building Solutions, a Director of the Lean Construction Institute and works as a consultant on select projects.

Her role at GB Building Solutions is to enable those who are construction focused to see the world from new perspectives. Being part of several of our strategic boards including Delivery Forum, Learning & Development Group and People Forum enables her to work at a strategic level. More day to day implementations take her to site on a regular basis working with projects to deliver efficiency improvements.

Louise is a facilitator, coach, and implementer of Business Improvement solutions which align process improvement with business strategy. Her approach combines her extensive experience in Lean with strategy deployment and people development. She believes in ensuring that the strategy and culture encourages and rewards continuous improvement.

She is accredited to deliver workshops and profiles in Insights® - a personal development tool which gives individuals an engaging, reinforcing and transformational insight into themselves and others. All our staff are offered profiles and Louise facilitates workshops which enable them to find out how to use this insight for both self development and to help them adapt and connect better with others.

Her process improvement experience is extensive and includes back office processes as well as core workstreams. She process maps collaboratively to design workable processes which maximise potential and eliminate waste. Her methods ensure buy in from those who work with the processes on a day to day basis.

Louise has a strong belief in ensuring that lessons learnt are shared around businesses to prevent repetition of mistakes and ensure that good ideas and innovation are maximised. She combines facilitated sessions which lead to business and individual learning with design and implementation of KPIs to measure the business impact.

If you would like Louise to work as a consultant on one of your projects or find out more about the workshops she will be facilitating in September you can contact her on
